

Mark MacLeod, Retired Vice President, Atlantic Canada, Chevron Canada

Mark MacLeod served as Interim President and Chief Executive Officer of C-CORE from April 2017 to June 2018, bringing to C-CORE extensive senior management experience. In his previous 36-year career with Chevron, he served in key international roles – with Chevron’s Research Group in the US, as the company’s UK Exploration Manager, Country Manager (Norway), and most recently, Vice President Atlantic Canada.

Mark MacLeod holds a Bachelor of Science degree in geology from LaSalle University and a Master of Science degree in geophysics from Stanford University.

He is an active volunteer, having served on numerous academic, community and industry boards and advisory bodies, including the Engineering and Applied Sciences Advisory Board at Memorial University. He serves as Chair of the Stella’s Circle Foundation Board, member of the C-CORE Board and member of the Board of Nalcor Energy.
